

## Price List

01 April 2026

**Please note:**

The prices shown in this document are indicative and reflect the typical costs of treatment. Before you commit to any treatment, you will be provided with a personalised, written Costed Treatment Plan confirming the treatment services, what is included and excluded, and the total expected costs relevant to your individual care.

Your Costed Treatment Plan will be valid for 8 weeks from the date of issue. If you choose to proceed within this period, the prices set out in your Costed Treatment Plan will apply.

If you decide to proceed after this 8-week period, an updated Costed Treatment Plan will be issued and prices will be recalculated in line with the current price list at that time.

Once a Costed Treatment Plan has been agreed and treatment has commenced, prices will not change unless:

- there is a clinically necessary change to your treatment, or
- you request a change to your treatment plan.

We encourage you to review your Costed Treatment Plan carefully and to ask for clarification if anything is unclear before proceeding.

Full details of our consultation and treatment terms and conditions can be found at:

<https://ariafertility.co.uk/our-legal-terms/>

<b>Consultations &amp; Pre-Treatment Investigations</b>	<b>£</b>
---	----------

## Consultations

Consultation	250
Counselling (payable directly to the counsellor)	80
Nurse Consultation	No Charge

## Investigations

Anti-Mullerian Hormone (AMH) - ovarian reserve blood test	130
Ultrasound scan – 2D pelvic scan including antral follicle count	250
HyCosy – test of tubal patency	585
Saline Infusion Hysterosonogram (3D scan) - saline contrast scan of uterine cavity	475
<b>Semen Analysis</b>	185
Sperm DNA Fragmentation (cost dependent on sperm quality):	
Sperm Count > 5million/ml	575
Sperm Count < 5million/ml	750
Post ZyMöt Sperm Preparation	850
Early pregnancy scan	250

## Screening Blood Tests

<b>Standard Viral serology</b> <ul style="list-style-type: none"> <li>• HIV, Hepatitis B surface antigen (HBsAg), Hepatitis B core antibody (Anti-HBc), Hepatitis C</li> <li>• Every patient undergoing IVF, ICSI or IUI treatments require these blood tests.</li> <li>• These tests must be with within 3 months of a first treatment cycle (i.e. egg collection or IUI procedure) and then repeated every 2 years for subsequent cycles.</li> </ul>	200 (per partner)
<b>Rubella</b> <ul style="list-style-type: none"> <li>• All patients must be tested to ensure immunity to rubella before treatment. If you are pregnant and catch rubella, it can cause serious damage to the unborn child.</li> </ul>	85
<b>Chlamydia</b> <ul style="list-style-type: none"> <li>• All patients are tested for Chlamydia to allow our doctors to treat any infection, prevent further spread and assess any damage which may have been caused to their fertility.</li> </ul>	110 (per partner)

## Cycle Monitoring & IUI Treatments

£

### Cycle Monitoring

#### Cycle monitoring costs include:

- Clinical planning & support.
- Monitoring ultrasound scans.

#### Cycle monitoring costs exclude:

- Monitoring blood tests & medications (if required).

#### Cycle Monitoring

- Cycle monitoring is charged on a per scan basis, up to a maximum of 3 scans per cycle.

250 / scan

#### Monitoring blood tests (if required)

Oestradiol (E2)	60
Luteinizing Hormone (LH)	60
Progesterone (P4)	60

### Artificial Insemination (IUI)

#### Artificial Insemination (IUI) cycle costs include:

- Clinical planning & support during the IUI treatment cycle.
- Monitoring ultrasound scans.
- ZyMöt Sperm Preparation (partner or donor) & insemination.

#### Artificial Insemination (IUI) cycle costs exclude:

- Pre-treatment screening blood tests, monitoring blood tests & medications (charged separately).
- Pregnancy scan or follow-up consultation.

#### Cancellation:

- If the cycle is abandoned prior to the insemination procedure, you will be eligible for a partial refund (You will be charged for scans & blood tests, medication is non-refundable – see cancellation & refund information).

#### Artificial Insemination (IUI) Cycle

- Excludes medication - approximate cost of drugs per stimulated IUI cycle £50 - £450

1,300

#### HFEA fee (payable in cycles in which donor sperm is used)

45

#### Monitoring blood tests (3 or more blood tests may be required per treatment cycle)

Oestradiol (E2)	60
Luteinizing Hormone (LH)	60
Progesterone (P4)	60

### Multicycle Artificial Insemination (IUI) Cycle Package

#### 3 Cycles of Artificial Insemination (IUI)

3,250

#### Please Note – multicycle IUI treatments contain and exclude the same items from individual treatment cycle option.

- Multicycle Artificial Insemination (IUI) treatment packages must start from the beginning of the 1<sup>st</sup> cycle of the package. They cannot be joined part-way though after a previous IUI cycle attempt.
- If a cycle is abandoned prior to insemination, this will be omitted from the 3 cycle package and you will be charged separately for scans & blood tests (see cancellation & refund information), medication is non-refundable.
- There is no refund offered if the 3 cycles are unsuccessful or if a livebirth occurs after any of the 3 cycles.
- IUI multicycle packages must be paid in full before the first cycle is started and completed within 12 months.
- If you wish to convert to IVF or stop treatment, prior to the completion of the 3 cycles, you will be charged for the IUI cycles undertaken at standard price list and the remainder of the multicycle fee refunded.

<b>IVF &amp; ICSI Treatment Cycles</b>	<b>£</b>
--	----------

## IVF Cycle

<b>IVF cycle costs include:</b> <ul style="list-style-type: none"> <li>Clinical planning &amp; support during the IVF treatment cycle.</li> <li>Monitoring ultrasound scans, egg collection &amp; anaesthetic charges, embryology &amp; ZyMöt sperm preparation.</li> <li>Fresh embryo transfer or embryo freeze if no transfer goes ahead (<b>excludes cryostorage fee</b>).</li> <li>Pregnancy scan, or a follow up consultation for cycles which do not result in a clinical pregnancy.</li> </ul>	
<b>IVF cycle costs exclude:</b> <ul style="list-style-type: none"> <li>Pre-treatment screening blood tests, monitoring blood tests &amp; medications (charged separately). Blood test &amp; medication costs vary per patient. Contact Aria administration to confirm costs.</li> </ul>	
<b>Cancellation:</b> <ul style="list-style-type: none"> <li>If the cycle is abandoned prior to egg collection procedure, you will be eligible for a partial refund (You will be charged for scans &amp; blood tests, medication is non-refundable – see cancellation &amp; refund information)</li> </ul>	
<b>IVF Cycle</b> <ul style="list-style-type: none"> <li>Excludes medication - approximate cost of drugs per IVF/ICSI cycle £600 - £2700</li> </ul>	4,150
<b>HFEA fee</b> (payable on every cycle where an embryo transfer takes place)	115
<b>Monitoring blood tests (3 or more blood tests may be required per treatment cycle)</b>	
Oestradiol (E2)	60
Luteinizing Hormone (LH)	60
Progesterone (P4)	60
<b>ICSI procedure</b> (if required)	1,450
<b>Extended Culture</b> (Blastocyst) <ul style="list-style-type: none"> <li>We routinely plan to culture all embryos to day 5. This fee is charged in addition to the IVF cycle cost, but will be refunded if culture beyond day 3 does not take place.</li> </ul>	650
<b>Embryoscope (Time-Lapse Imaging)</b> <ul style="list-style-type: none"> <li>Incubation in the non-interrupted time-lapse imaging incubator is our preference for monitoring embryo development. Please see treatment 'add-ons' guide for more information.</li> </ul>	600
<b>Embryo Freezing (in addition to IVF fees, <b>excludes cryostorage fee</b>)</b> <ul style="list-style-type: none"> <li>We plan to freeze all good quality embryos following every fresh embryo transfer</li> <li>If no embryo transfer goes ahead the embryo freeze is included in the treatment cost</li> </ul>	550

## Cryostorage Options

Storage of frozen eggs/sperm/embryos - monthly direct debit	32 / month
<ul style="list-style-type: none"> <li>If all the eggs, sperm or embryos are thawed the ongoing storage cost will discontinue.</li> </ul>	

<b>Multicycle IVF Packages</b>	<b>£</b>
--------------------------------	----------

**IVF Multicycle (Fresh embryo transfer & freeze all)**

**Please Note:**

- Multicycle IVF treatment packages must start from the beginning of the 1st cycle of the package. They cannot be joined part-way though after a previous IVF cycle attempt.

**Multicycle IVF costs include:**

- Clinical planning & support for each IVF treatment cycle.
- Monitoring ultrasound scans, egg collection procedure & anaesthetic charges.
- Fresh embryo transfer or embryo freeze if no transfer goes ahead.
- Pregnancy scan, or a follow up consultation for cycles which do not result in a clinical pregnancy.

**Multicycle IVF costs exclude:**

- Pre-treatment screening blood tests, monitoring blood tests & medications (charged separately). Blood test & medication costs vary per patient. Contact Aria administration to confirm costs.
- HFEA fee – payable on every cycle where an embryo transfer takes place.
- ICSI, extended culture (blastocyst), time-lapse imaging, and any other additional procedures (if required)
- The cryostorage fee is applicable on 1st freeze only and payable on a monthly basis as per the cryostorage fee.**

**Cancellation:**

- If a cycle is abandoned prior to the egg collection procedure, this will be omitted from the multicycle package and you will be charged for scans & blood tests, medication is non-refundable – see cancellation & refund information.
- There is no refund offered in the event of no eggs being collected, fertilisation failure or nothing suitable for freezing.

**Important:**

- There is no refund offered if the cycles are unsuccessful or if a livebirth occurs after any of the cycles.
- The multicycle package is complete when all egg collections have been performed.
- All multicycle packages must be paid in full before the first cycle is started and completed within 12 months.
- If you decide to opt out of the multicycle package, you will be charged for the cycles undertaken at the standard price list fees that apply at the time of treatment and refunded the remaining difference.

<b>2 Cycles of IVF</b>	<b>7,250</b>
<ul style="list-style-type: none"> <li>Excludes medication - approximate cost of drugs per IVF cycle £600 - £2700</li> </ul>	
<b>3 Cycles of IVF</b>	<b>9,350</b>
<ul style="list-style-type: none"> <li>Excludes medication - approximate cost of drugs per IVF cycle £600 - £2700</li> </ul>	

Egg Freezing	£
--------------	---

## Egg Freezing Cycle

### Egg Freezing cycle cost includes:

- Clinical planning & support during the Egg Freezing treatment cycle.
- Monitoring ultrasound scans, egg collection procedure & anaesthetic charges.
- Egg Freezing (excludes cryostorage fee).
- Follow up consultation.

### Egg Freezing cycle cost exclude:

- Pre-treatment screening blood tests, monitoring blood tests & medications (charged separately).  
Blood test & medication costs vary per patient. Contact Aria administration to confirm costs.

### Cancellation:

- If the cycle is abandoned prior to egg collection procedure, you will be eligible for a partial refund.  
(You will be charged for scans & blood tests, medication is non-refundable – see cancellation & refund information)

### Egg Freeze Cycle

- Excludes medication - approximate cost of drugs per Egg Freezing cycle £600 - £2700
- Excludes cryostorage fee

3,350

### Monitoring blood tests (3 or more blood tests may be required per treatment cycle)

Oestradiol (E2)	60
Luteinizing Hormone (LH)	60
Progesterone (P4)	60

## Cryostorage Options

Storage of frozen eggs/sperm/embryos (monthly direct debit)	32 / month
<ul style="list-style-type: none"> <li>• If all the eggs, sperm or embryos are thawed the ongoing storage cost will discontinue.</li> </ul>	

## Egg Thaw and Embryo Transfer

### Egg Thaw and Embryo Transfer cycle cost includes:

- Clinical planning & support during the egg thaw treatment cycle.
- Monitoring ultrasound scans.
- Thawing of eggs, ICSI and transfer of embryos, or embryo freeze if no transfer goes ahead.
- Assisted hatching of embryos created from frozen/thawed eggs.
- Pregnancy scan, or a follow up consultation for cycles which do not result in a clinical pregnancy.

### Egg Thaw and Embryo Transfer cycle cost excludes:

- Pre-treatment screening blood tests, monitoring blood tests & medications (charged separately).  
Blood test & medication costs vary per patient. Contact Aria administration to confirm costs.

### Egg thaw, ICSI & Embryo Transfer Cycle

- Excludes medication - approximate cost of drugs per Egg Thaw cycle £0 - £500

4,250

### HFEA fee (payable on every cycle where an embryo transfer takes place)

115

<b>Multicycle Egg Freezing Packages</b>	<b>£</b>
---	----------

## Multicycle Egg Freezing

**Please Note:**

- Multicycle Egg Freezing treatment packages must start from the beginning of the 1st cycle of the package. They cannot be joined part-way though after a previous egg freezing attempt.

**Multicycle Egg Freezing costs include:**

- Clinical planning & support for each egg freezing cycle.
- Monitoring ultrasound scans, egg collection procedure & anaesthetic charges.
- Egg Freezing.
- Follow up consultation.

**Multicycle IVF costs exclude:**

- Pre-treatment screening blood tests, monitoring blood tests & medications (charged separately). Blood test & medication costs vary per patient. Contact Aria administration to confirm costs.
- **The cryostorage fee is applicable on 1st freeze only and payable on a monthly basis as per the cryostorage fee.**

**Cancellation:**

- If a cycle is abandoned prior to the egg collection procedure, this will be omitted from the multicycle package and you will be charged for scans & blood tests, medication is non-refundable – see cancellation & refund information.
- There is no refund offered in the event of no eggs being collected or the eggs collected are not suitable for freezing.

**Important:**

- There is no refund offered if the cycles are unsuccessful or if a livebirth occurs after any of the cycles.
- The multicycle package is complete when all egg collections have been performed.
- All multicycle packages must be paid in full before the first cycle is started and completed within 12 months.
- If you decide to opt out of the multicycle package, you will be charged for the cycles undertaken at the standard price list fees that apply at the time of treatment and refunded the remaining difference.

<p><b>2 Cycles of Egg Freezing</b></p> <ul style="list-style-type: none"> <li>• Excludes medication - approximate cost of drugs per IVF/ICSI cycle £600 - £2700</li> <li>• Excludes cryostorage fee</li> </ul>	5,850
<p><b>3 Cycles of Egg Freezing</b></p> <ul style="list-style-type: none"> <li>• Excludes medication - approximate cost of drugs per IVF/ICSI cycle £600 - £2700</li> <li>• Excludes cryostorage fee</li> </ul>	8,150

<b>Frozen Embryo Transfer, Thaw Cycles &amp; Freezing</b>	<b>£</b>
---	----------

### Frozen Embryo Transfer

**Frozen Embryo Transfer cycle cost includes:**

- Clinical planning & support during the frozen embryo transfer treatment cycle.
- Monitoring ultrasound scans.
- Thaw, assisted hatching (if not previously performed) & embryo transfer.
- Pregnancy scan, or a follow up consultation for cycles which do not result in a clinical pregnancy.

**Frozen Embryo Transfer cycle cost excludes:**

- Pre-treatment screening blood tests, monitoring blood tests & medications (charged separately).  
Blood test & medication costs vary per patient. Contact Aria administration to confirm costs.

<b>Frozen embryo transfer (FET)</b> <ul style="list-style-type: none"> <li>• Excludes medication - approximate cost of drugs per FET cycle £0 - £500</li> </ul>	2,350
<b>HFEA fee</b> (payable on every cycle where an embryo transfer takes place)	115

### Egg Thaw and Embryo Transfer

**Egg Thaw and Embryo Transfer cycle cost includes:**

- Clinical planning & support during the egg thaw treatment cycle.
- Monitoring ultrasound scans.
- Thawing of eggs, ICSI and transfer of embryos, or embryo freeze if no transfer goes ahead.
- Assisted hatching of embryos created from frozen/thawed eggs.
- Pregnancy scan, or a follow up consultation for cycles which do not result in a clinical pregnancy.

**Egg Thaw and Embryo Transfer cycle cost excludes:**

- Pre-treatment screening blood tests, monitoring blood tests & medications (charged separately).  
Blood test & medication costs vary per patient. Contact Aria administration to confirm costs.

<b>Egg thaw, ICSI &amp; Embryo Transfer Cycle</b> <ul style="list-style-type: none"> <li>• Excludes medication - approximate cost of drugs per Egg Thaw cycle £0 - £500</li> </ul>	4,250
<b>HFEA fee</b> (payable on every cycle where an embryo transfer takes place)	115

### Egg Thaw and Embryo Freeze

**Egg Thaw and Embryo Freeze cycle cost includes:**

- Clinical planning & support during the egg thaw treatment cycle.
- Thawing of eggs, ICSI and embryo freeze.
- Assisted hatching of embryos created from frozen/thawed eggs.
- Follow up consultation if required.

**Egg Thaw and Embryo Freeze cycle cost excludes:**

- Pre-treatment screening blood tests, monitoring blood tests (charged separately).  
Blood test costs vary per patient. Contact Aria administration to confirm costs.  
Frozen embryo transfer

<b>Egg thaw, ICSI &amp; Embryo Freeze Cycle</b>	3,500
---	-------

### Egg or Embryo Thaw within a fresh treatment cycle

<b>Egg or embryo thaw within an IVF/ICSI cycle</b> <ul style="list-style-type: none"><li>If batching of embryos, this fee is applicable for the thawing of embryos in a subsequent IVF cycle, e.g. PGT-A</li></ul>	600
--	-----

### Freezing Costs

<b>Egg or embryo freezing within an IVF/ICSI cycle</b> (excluding storage)	550
<b>Sperm freezing</b> (excluding storage)	350

### Cryostorage Options

<b>Storage of frozen eggs/sperm/embryos</b> (monthly direct debit) <ul style="list-style-type: none"><li>If all the eggs, sperm or embryos are thawed the ongoing storage cost will discontinue.</li></ul>	32 / month
--	------------

## Shared Motherhood (Same Sex Female Partners)

£

### Shared motherhood (intra-partner donation)

Egg donation with shared motherhood is an egg donation cycle for same sex parents whereby one wishes to donate her eggs to her partner in an attempt to conceive.

#### IVF with intra-partner donation cycle costs include:

- Clinical planning & support during the donation cycle for both egg provider & recipient.
- Cycle monitoring ultrasound scans for egg provider.
- Egg collection procedure & anaesthetic charges for egg provider.
- Fresh embryo transfer or embryo freeze if no transfer goes ahead (**excludes cryostorage fee**).
- Pregnancy scan, or a follow up consultation for cycles which do not result in a clinical pregnancy.

#### IVF with intra-partner donation cycle costs exclude:

- Egg provider & recipient screening blood tests, monitoring blood tests & medications (charged separately).
- Additional screening tests for egg provider, if a synchronised embryo transfer is taking place with recipient partner. Blood test & medication costs vary per patient. Contact Aria administration to confirm costs.

#### Cancellation:

- If the egg providers cycle is abandoned prior to egg collection procedure, you will be eligible for a partial refund. (You will be charged for scans & blood tests, medication is non-refundable – see cancellation & refund information)

<b>IVF with intra-partner egg donation (embryo transfer for recipient partner)</b> <ul style="list-style-type: none"> <li>• Excludes egg provider stimulation medication – approximate cost of drugs per cycle £600 - £2700</li> <li>• Excludes egg recipient medication – approximate cost of drugs per cycle £150 - £600</li> </ul>	5,350
<b>HFEA fee</b> (payable on every cycle where an embryo transfer takes place)	115
<b>IVF with intra-partner egg donation (embryo freeze – no embryo transfer to recipient partner)</b> <ul style="list-style-type: none"> <li>• Includes embryo freezing (<b>excludes cryostorage fee</b>).</li> <li>• Excludes egg provider stimulation medication - approximate cost of drugs per cycle £600 - £2700</li> </ul>	4,150
<b>Monitoring blood tests (3 or more blood tests may be required per treatment cycle)</b> <ul style="list-style-type: none"> <li>Oestradiol (E2) <span style="float: right;">60</span></li> <li>Luteinizing Hormone (LH) <span style="float: right;">60</span></li> <li>Progesterone (P4) <span style="float: right;">60</span></li> </ul>	
<b>ICSI procedure</b> (if required)	1,450
<b>Extended Culture</b> (Blastocyst) <ul style="list-style-type: none"> <li>• We routinely plan to culture all embryos to day 5. This fee is charged in addition to the IVF cycle cost, but will be refunded if culture beyond day 3 does not take place.</li> </ul>	650
<b>Embryoscope (Time-Lapse Imaging)</b> <ul style="list-style-type: none"> <li>• Incubation in the non-interrupted time-lapse imaging incubator is our preference for monitoring embryo development. Please see treatment 'add-ons' guide for more information.</li> </ul>	600
<b>Embryo Freezing (in addition to IVF fees, <b>excludes cryostorage fee</b>)</b> <ul style="list-style-type: none"> <li>• We plan to freeze all good quality remaining embryos following every fresh embryo transfer</li> <li>• If no embryo transfer goes ahead the embryo freeze is included in the treatment cost</li> </ul>	550

### Cryostorage Options

Storage of frozen eggs/sperm/embryos (monthly direct debit)	32 / month
<ul style="list-style-type: none"> <li>• If all the eggs, sperm or embryos are thawed the ongoing storage cost will discontinue.</li> </ul>	

Genetics	£
PGT-Aneuploidy (PGT-A) – Genetic testing to detect abnormalities with the number of chromosomes	
PGT-A (within a treatment cycle)	
Embryo biopsy	950
PGT-A sample fee (per embryo)	375
PGT-A (testing of previously frozen embryos)	
Embryo thaw, biopsy and refreeze	2,100
PGT-A sample fee (per embryo)	375
PGT-Structural Rearrangement (PGT-SR) – Genetic testing to detect inherited chromosomal rearrangements	
PGT-SR (translocations) sample fee (per embryo)	425
Embryo biopsy	950
PGT-Monogenic (PGT-M) – Screening for single gene or monogenic disorders	
HFEA application for unlicensed PGT-M condition	495
PGT-M (genetic test development)	2,800
PGT-M (single gene disorders) sample fee (per embryo)	450
Embryo biopsy	950
Carrier Genetic Testing (CGT)	
<ul style="list-style-type: none"> <li>CGT is an advanced carrier genetic test, which determines whether an individual or couple are carriers of genetic mutations, such as Cystic Fibrosis, which could be transmitted to future children.</li> </ul>	
CGT PLUS (400+ genes) – Individual Test	950
CGT PLUS (400+ genes) – Couples (2 x tests)	1,350
CGT EXOME (2000+ genes) – Individual Test	1,650
CGT EXOME (2000+ genes) – Couples (2 x tests)	1,950
<ul style="list-style-type: none"> <li>CGT Sync is a genetic test for the analysis of specific genes of interest from a known carrier (gamete donor).</li> </ul>	
CGT Sync – One gamete donor (all genes of interest and 64 X-linked genes if required)	950
Analysis of the genes of interest from an additional donor (each) simultaneously	350

Additional Procedures	£
<b>Laboratory Procedures</b>	
Assisted hatching	275
Artificial Oocyte Activation (AOA)	475
EmbryoGen	475
Embryo Glue	300
PIMSI (IMSI+PICSI)	850
<b>Andrology Procedures</b>	
Semen Analysis	185
Semen Culture	120
Sperm DNA Fragmentation Analysis	POA
Sperm Aneuploidy Test (SAT/FISH)	800
Sperm Hyaluronan-Binding Assay (HBA)	120
Surgical Sperm Retrieval <ul style="list-style-type: none"> <li>Urologist fee</li> </ul> All surgical sperm retrievals performed by specialist Urologist at their own hospital	POA
Sperm motility enhancer (surgically recovered sperm)	180
<b>Clinical Procedures &amp; Services</b>	
ERA test (Endometrial Receptivity Array Test) <ul style="list-style-type: none"> <li>includes a scan but excludes medication &amp; blood tests</li> </ul>	1,400
Repeat ERA (if required)	1,400
EMMA (Endometrial Microbiome Metagenomic Analysis) & ALICE (Analysis of Infectious Chronic Endometritis)           EMMA analyses the endometrial microbiome to identify a abnormal uterine environment. <ul style="list-style-type: none"> <li>includes a scan but excludes medication &amp; blood tests</li> </ul> if EMMA tests positive a second sample is required           ALICE is a test that detects pathogenic bacteria causing chronic endometritis.	1,200
Repeat EMMA & ALICE (if required)	350
EndomeTRIO test (ERA, EMMA and ALICE)           Complete profile of endometrial health	1,700
Endometrial scratch	450
Hysteroscopy (including sedation and surgeon's fee)	1,800
Histology (small sample)	275
Intralipid infusion (per infusion)	350
Mock Embryo Transfer	350
Anaesthetics Review	350
Anaesthetics assistant / ODP for BMI cases >35 (Only after case approval by anaesthetist at anaesthetics review)	400

Sedation anaesthetic for embryo transfer	400
Private prescription fee	60

## Import/Export of Gametes or Embryos

<ul style="list-style-type: none"> <li>The below charges are for administration only, courier charges &amp; cryostorage fees are not included.</li> </ul>	
Export for all Gametes or Embryos UK (administration fee)	350
Export for all Gametes or Embryos International (administration fee)	650
Import for all Gametes or Embryos UK (administration fee, <b>excludes cryostorage fee</b> )	150
Import of Gametes or Embryos International (administration fee, <b>excludes cryostorage fee</b> )	500
Import of Donor Gametes (eggs/sperm) from Aria approved Donor Banks (administration fee, <b>excludes cryostorage fee</b> )	275

## Cycle Cancellation & Refund Information

Cycle cancellation fees and partial refunds are applicable to treatments and vary based on the stage of the treatment when cancellation occurs. For more information please refer to:

- INFAD04a Pre-consultation Terms & Conditions
- INFAD04b Pre-treatment Terms & Conditions

### Cycle cancellation at monitoring stage (IUI, IVF/ICSI, Frozen Embryo Transfer)

- If the cycle is cancelled at the monitoring stage prior to the insemination (IUI), egg collection (IVF/ICSI) or thawing of frozen embryos (FET) you will be charged for scans, medical support & blood tests incurred. Unfortunately, medication costs cannot be refunded.

Cycle cancelled after 1 scan £400

Cycle cancelled after 2 scans £650

Cycle cancelled after 3 scans or more £900

Monitoring blood tests:

Oestradiol (E2) £60

Luteinizing Hormone (LH) £60

Progesterone £60

### IVF cycle - freeze all for OHSS & other medical reasons

If no embryo transfer goes ahead and all embryos need to be frozen for medical reasons the following costs apply:

- Embryo freeze provided at no additional cost
- Monthly cryostorage fee will be charged from the date the embryos are frozen.
- First Frozen Embryo Transfer ("FET") will be free of charge, and you will only incur the additional medications cost associated with that first embryo transfer. This free of charge FET will only be available following the first egg collection where you develop OHSS and does not apply to any other reasons for treatment withdrawal.

### IVF cycle – treatment cancellation (all cycles)

- No refund is applicable for multicycle packages which have progressed to the egg collection stage.
- For individual cycles the following refunds will be provided:

Failed egg collection (no eggs collected or all eggs immature)	Refund £850 (plus HFEA fee)
Failed fertilisation	Refund of £550 (plus HFEA fee)

### Frozen Embryo Transfer cycle cancellation

Failed frozen embryo thaw	Refund of £550 (plus HFEA fee)
---------------------------	--------------------------------
