# Price List

01 April 2026

**Please note:**

The prices shown in this document are indicative and reflect the typical costs of treatment. Before you commit to any treatment, you will be provided with a personalised, written Costed Treatment Plan confirming the treatment services, what is included and excluded, and the total expected costs relevant to your individual care.

Your Costed Treatment Plan will be valid for 8 weeks from the date of issue. If you choose to proceed within this period, the prices set out in your Costed Treatment Plan will apply.

If you decide to proceed after this 8-week period, an updated Costed Treatment Plan will be issued and prices will be recalculated in line with the current price list at that time.

Once a Costed Treatment Plan has been agreed and treatment has commenced, prices will not change unless:

- there is a clinically necessary change to your treatment, or
- you request a change to your treatment plan.

We encourage you to review your Costed Treatment Plan carefully and to ask for clarification if anything is unclear before proceeding.

Full details of our consultation and treatment terms and conditions can be found at:

<https://ariafertility.co.uk/our-legal-terms/>

Fresh Egg Donation Treatment Cycles.....	3
Sperm Donation.....	4
Frozen Donor Egg Treatment Cycle.....	5
Cycle Cancellation & Refund Information.....	6

Fresh Egg Donation Treatment Cycles	£
-------------------------------------	---

Egg Donation Recipient (including known & self-recruited donors)

Egg donation cycle costs include:

- Clinical planning & support during the egg donation treatment cycle for both donor and recipient.
- Cycle monitoring ultrasound scans for egg donor and recipient.
- Egg donor monitoring blood tests, medications & donation compensation.
- Egg collection procedure & anaesthetic charges for egg donor.
- Fresh embryo transfer for recipient or embryo freeze if no transfer goes ahead (**excludes cryostorage fee**).
- Pregnancy scan for the recipient is included, or a follow-up consultation for egg donation cycles which do not result in a clinical pregnancy.

Egg donation cycle costs exclude:

- Donor consultation & investigations (required for each known or self-recruited donor).
- Pre-treatment donor screening blood tests (required for either 1<sup>st</sup> donation cycle or subsequent donation cycle)
- Pre-treatment screening blood tests, monitoring blood tests & medications for egg recipients (charged separately). Blood test & medication costs vary per patient. Contact Aria administration to confirm costs.

Cancellation:

- If the egg donors cycle is abandoned prior to egg collection procedure, you will be eligible for a partial refund (see cancellation & refund information)
